

School Profile

Morowali Metal Industry Polytechnic

The Morowali Metal Industry Polytechnic, which is under the Ministry of Industry, was established on 23 December 2016. Its vision is to become a competitive vocational higher education institution that meets the human resources and technological needs of the metal industry.

Industrial Sector Background

The metal industry has been the driver of the national economic growth, supported by the nickel downstream policy. This sector contributes around 19% to the GDP. According to the Ministry of Industry, there are an estimated 300.000 workers in this industry (2025). The sector offers significant growth opportunities due to the following:

- Decentralized industrial area development in Eastern Indonesia;
- Downstream industry development of nickel-based products, such as stainless steel and batteries

Curriculum

The curriculum consists of 60% practical training and 40% theory. It is applies through 4-2 system (4 semesters in campus and 2 semesters or 12 months of industrial internship).

General Information

School Type
Polytechnic

Education Level
Diploma III

School Accreditation
Good

School Fee
Rp 1,500,000 - Rp 2,000,000

638

Active Students
(2023-2025)

45%

Women

516

Graduates
(2020-2025)

24%

Women

46

Lecturers & Technicians
(2025)

19%

Women

Study Programs

Mechanical Maintenance Technology

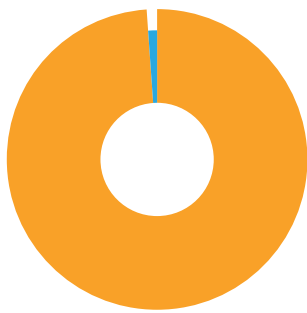

Electrical and Installation Technology

Mineral Chemical Technology

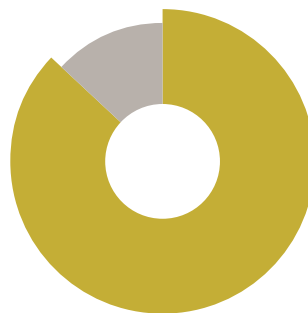

Tracer Study

In 2025, Morowali conducted a tracer study to track its 2024 graduates. The study achieved a 100% response rate from 80 graduates, with the following detailed results:

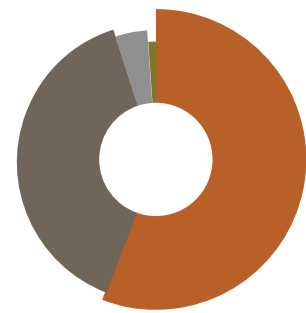

Employment Absorption

99% Worked
1% Continue to study

Graduates Waiting Period to Find Jobs

87% 0 months
13% 1-6 months

Company Satisfaction with Graduates

56% Very satisfied
39% Satisfied
4% Quite satisfied
1% Not satisfied
