

School Profile

Lombok Tourism Polytechnic

Lombok Tourism Polytechnic operates under the Ministry of Tourism. Its vision is to emerge as a leading vocational higher education institution in the tourism field, blending global standards with a distinctively Indonesian character.

Industrial Sector Background

- The establishment of Lombok International Airport has strengthened air connectivity by offering direct international routes to Mandalika, a national super-priority destination. This has solidified Lombok's position as hub an Asia-Pacific connectivity and a new axis for international tourism.
- The Mandalika MotoGP increased tourist numbers by 140% from 2020 to 2024, both before and after the event. This has impacted local revenue growth, investment, job creation, and poverty reduction.

Curriculum

The Polytechnic Tourism under Ministry of Tourism applied curriculum referring to ASEAN standard, Mutual Recognition Arrangement on Tourism Professional Competency ASEAN-Common Competency Assessment Tool (MRATP CACT), is a framework designed to bolster the mobility of tourism workers within the ASEAN region by standardizing qualifications and curricula.

The percentage of curriculum is 30% theory to 70% practice which applies to 3 semesters in campus for theory, 2 semesters for practice and 1 semester for final project.
