

RFP for Procuring “Non-Automated waste collection vans” for Sylhet City Corporation

SWISS
FOUNDATION
FOR TECHNICAL
COOPERATION

We create opportunities

We are a leading organisation for the implementation of international development projects. We promote inclusive economic, social, and ecological development to make an effective contribution towards sustainable and widespread prosperity in developing and emerging economies.

Background

Swisscontact was established in 1959 as an independent foundation by notable figures from the worlds of commerce and science in Switzerland. It is exclusively involved in international development cooperation and has carried out its mandated projects since 1961. Based in Zurich, Swisscontact currently manages over 130 projects in 41 countries on behalf of public and private funding partners.

Project Brief

SMILE (Sustainable and Meaningful Intervention for Livelihood Enrichment) is a five-year project from 2023 to 2028, implemented by Swisscontact Bangladesh. It aims to address the immediate needs of local communities in five districts in Bangladesh – Habiganj, Moulvibazar, Sylhet, Sunamganj, and Dhaka. The project has six main components: Education, Skills Development, Health, Cooperative Governance, Environment and Community Safety, and Technology Innovation.

The environment and community safety component of the SMILE Project is committed to ensuring the

sustainable well-being of both our environment and the communities it supports. Aligned with our steadfast dedication to addressing environmental issues and enhancing community resilience, this component stands as the cornerstone of the project's endeavors. Through strategic partnerships with local communities, NGOs, INGOs, private and public organizations, the project seeks to execute a series of impactful interventions. These interventions not only contribute to environmental conservation and ecological balance but also empower communities to actively engage in the safeguarding of their natural surroundings. Project's approach encompasses a range of key activities, including tree plantation campaigns, awareness-raising initiatives, nature-based solutions, and biodiversity preservation, all with the overarching goal of fostering a sustainable and resilient environment in the selected locations. This component epitomizes the project's unwavering commitment to promoting environmental sustainability and community safety, with ultimate benefits extending to all stakeholders involved.

In alignment with our project goals, a key strategy focuses on enhancing the Solid Waste Management system within the Sylhet City Corporation (SCC).

With this backdrop, the SMILE project is now inviting proposals from prospective vendors for the procurement of non-automated waste collection vans.

Place of delivery: To Office of the Chief Waste Management Officer, Sylhet City Corporation, Sylhet

The detailed ToR and the proposal outline can be found in the link below:

1. ToR for Procurement of “non-automated waste collection vans” for Sylhet City Corporation’s clean city efforts.– **(Click here)**
