Integrated landscape governance with an inclusive systems development approach that recognizes the interconnection of different resource uses, ecosystems and the people who interact with them.

**Measurable collective impacts on the landscape that are beneficial to the environment, food production, local economies and households**

- Transparency in commodity production and good governance
- Decent and diversified income for producers and their families
- Conservation of biodiversity and reduction of greenhouse gas emissions
- Better prospects and conditions for youth and future generations

**CAPACITY BUILDING OF LOCAL ORGANIZATION**
Training to monitor, track progress and continuously improve performance and results of sustainable landscape

**COMMON AGENDA / ACTION PLAN**
KPIs for Sustainable Landscape Development, including financial (public-private) plan for ecosystem protection measures

**STAKEHOLDER MAPPING**
Social Network Analysis and consultations (public & private) to foster jurisdictional buy-in and cross-company collaboration

**MULTI-STAKEHOLDER PLATFORM**
Facilitation of participative landscape characterization and agenda/action plan setting

**CROSS-SECTOR KNOWLEDGE EXCHANGE**
On landscape approach and sustainable land management Communities of practices and multi-stakeholder fora

**Gender Equity and Social Inclusion**
- Sensitization on GESI and leadership trainings for women and youth

**Transition to agroforestry systems**
- Capacity building for agroforestry intensification, climate-smart agriculture and regenerative agriculture

**Post-harvest practices and processing**
- Innovative advisory services and technologies to ensure better opportunities and create resilience

**Consolidate sustainable supply**
- Support valorization, aggregation and quality assurance of supply and support marketing of landscape products

**Access to climate finance**
- Facilitate payments for environmental services and enable smallholders to access voluntary carbon credit markets

**Income diversification**
- Facilitate access to diversified markets (ecotourism, circular economy, green entrepreneurship)
