

Phase 1

- **15 CBOs were formed** (from 11 out of the 29 administrative wards in Morogoro municipality) and conducted waste management and composting services.
- **199 CBO workers (97 women) from 15 CBOs** benefited from the project are now fully employed, working in improved conditions, while their incomes steadily growing.
- **15,912 households were reached** through an awareness campaign and were introduced to the practice of sorting waste at source. Of these, around 15% began sorting their waste at source.
- **50 health officers** from the Morogoro Municipal Council were trained on waste management policies and the different models of managing urban solid waste.
- **124 street/ward leaders (56 women)** from six wards in Morogoro Municipality were trained on solid waste management by-laws, including fee structures, proper management of waste at ward level and supervision of CBO activities.
- **CBO workers managed to increase their average net annual income** by CHF210, which is an increase of 56.7 % of the average baseline of CHF370 per year.
- **64 members (42% female) from five CBOs managed to diversify their income generation** from waste collection alone to small-scale recycling, following technical training on entrepreneurship and recycling. Between 2014 and 2016, they operated compost sites and recovered 8,702 tonnes of organic waste.
- **With 8,702 tonnes of organic waste recovered and composted**, the environmental pollution and degradation have been reduced by **16, 533.8 tons of CO₂ emissions**.
- The **total net additional income for CBO workers was CHF25,766 and that of the recyclers was CHF 19,200**.
- **Six Mavuno savings and lending groups** were formed to improve access to finance.
- **15 litter bin prototypes** were designed and installed in public areas for waste separation.

Phase 2

- **27 waste collection CBOs** were formed.
- **425 waste collectors (190 female)** from the 27 CBOs were engaged in the capacity-building exercises.
- **118,154 tonnes of sorted waste were collected** and reduced the dumpsites.
- **90 waste recyclers (56 female)** were engaged.
- **The environmental pollution and degradation** have thus been reduced by 72,230 tons of CO₂ emissions .
- **Eight saving and lending groups (referred to as Mavuno by Swisscontact)** were formed and members saved and lent CHF2,727.
- **Microcredits have been issued to 144 CBO workers (102 female)** of five CBO groups, of which 111 CBO workers (78 female) of two CBOs additionally accessed microleasing products at a value of CHF5,082.
- **The net annual income increased by an average of CHF286 for the 381 CBO workers (184 female)** supported by the project.
- The **net annual income increased by an average of CHF280 for 90 recyclers** supported by the project.
- **46 green and new jobs were created by the CBOs and 40 new recycling jobs by the recycling industry**.
- **Two strategic partnerships were solidified** – one with a financial institution (TUBEAMOI Sacco) and one with a recycler (Shun – Tao).
- **36,150 households paid their monthly waste collection fees**.
- **12,680 households are practising proper waste sorting at source**.
- **40,202 tonnes of recyclables were traded by the waste collectors**.
- **38,016 tonnes of organic waste have been composted by the CBOs**.
