Mission and Values
Swisscontact
Swiss Foundation for Technical Cooperation
We are a leading organisation for the implementation of international development projects. Founded in 1959 and registered under Swiss law, we are an independent non-profit organisation. We are politically and denominationally neutral.

Our Mission
We promote inclusive economic, social and ecological development to make an effective contribution towards sustainable and widespread prosperity in developing and emerging economies.
With this objective in mind, we offer the chance to economically and socially disadvantaged people to improve their lives on their own initiative.

Our Values and Beliefs
We believe that people, even in dire conditions have the ability and will to act and liberate themselves from the shackles of poverty. However, this is only possible in an enabling environment and level playing field.
We make an effective contribution to improve the framework conditions for sustainable development through the facilitation of access to skills, knowledge, markets, technologies and financial services.
We believe that balanced private sector and market-driven approaches in the context of an environmentally and socially sustainable market economy offer the best conditions for people to fulfill their potential and make sustainable development possible.
We act responsibly and respect people in their own contexts, societies and cultures.
We stand for professional quality and high ethical standards in our activities.

What we do
• We strengthen the competencies of people, improving their employability
• We increase the competitiveness of enterprises, growing their business
• We foster social and economic systems, promoting inclusive development

What we offer
• Project Implementation
• Advisory Services
• Training
• Applied Research

Our Working Principles
Inclusive Systems Development
We apply a systemic approach: this means acting as trainers, facilitators and enablers, seeking to enable local organisations and partners, ensuring they take direct ownership. This is how we achieve sustainable impact at scale.

Learning Culture
We continuously develop and embed new learning methodologies, increasing knowledge, competence and performance within our organisation.

Evidence-based adaptive management
We manage our projects with an evidence-based and adaptive management approach, based on a standardised monitoring and results measurement system that allows for informed decision-making and timely corrective action.

Engaging the Private Sector
We seek to develop partnerships with local and international businesses to increase the range of opportunities for our partners and people we serve.

Our Sustainability Criteria
Gender Equality and Social Inclusion
We promote gender equality, both in our project work and within our organisation. We strive for the social inclusion of all people.

Financial Inclusion
In our projects, we promote financial literacy and access to affordable and fair financial products and services.

Environmental Responsibility
We always consider the environment, actively exploring opportunities to enhance the resilience of individuals and communities to deal with climate change and promoting solutions for efficient and sustainable use of resources.

Good Governance
We promote transparent, accountable, participatory and effective decision-making processes. We support and strengthen governing institutions that foster economic growth, human development and social cohesion.

Agenda 2030
The goals of the Agenda 2030 are integrated into our projects and help to increase the impact and quality of our work. We contribute directly to the following sustainability goals:

Partnerships
We foster and develop partnerships with local, national and international knowledge and implementation partners.
In Switzerland, we establish links between international co-operation and the private sector.

Certification and Taxes
The Swiss certification organisation ZEWO confirms that Swisscontact utilises funds and donations as per their defined purpose, economically and effectively. Swisscontact is exempt from taxes. Donations are tax-deductible in Switzerland. Our financial accounting abides by the regulations of SWISS GAAP FER 21.
